Healthcare Business Analyst with 5+ years of experience across healthcare operations and data analytics, transforming complex datasets into actionable insights. Proficient in SQL, Python, Power BI, Tableau, and QuickSight to automate reporting workflows, track KPIs, and drive quality improvement through PDSA cycles. Experienced in presenting findings to external clients and senior stakeholders, with deep expertise in HEDIS, HIPAA, and health equity analysis.

SKILLS

Programming & Analytics: SQL, R, Python, SAS, MS Excel (Advanced)

Cloud & Data Platforms: Tableau, Power BI, BigQuery, AWS (QuickSight), ETL Pipelines, GitHub, REDCap, Oracle

Management: Lean Six Sigma, Agile Project Management, JIRA, PDSA

Healthcare: HL7, FHIR, HIPAA, Medicaid/Medicare, EHR, HEDIS, CMS Rating, ICD-10/CPT Codes

Analytics: Statistical Analysis (Regression, Hypothesis Testing), Predictive Modeling, Trend Analysis, Utilization Management

WORK EXPERIENCE

Behavioral Health Clinical Quality Audit Analyst | Elevance Health | Boston, USA May 2025 – Present

- Conducted ongoing data validation in Power BI and QuickSight across routine system updates and a major system transformation, safeguarding data integrity and ensuring accurate KPI reporting to external clients.
- Automated recurring reporting workflows in Power BI, covering weekly, monthly, quarterly, and annual cycles, reducing manual effort by 28%.
- Presented bi-annual and annual performance reports, translating complex data findings into clear, actionable narratives and delivering findings in executive briefings to the Massachusetts Department of Mental Health.
- Partnered with data warehouse and development teams to lead business requirements for system enhancements, preserving historical datasets to support longitudinal analysis.
- Coordinated with internal stakeholders to align data definitions, audit methodologies, and reporting requirements, streamlining workflows for behavioral health quality reviews.
- Collaborated with clinical and quality audit teams to translate data findings into actionable insights, leading PDSA cycles that resulted in a 19% increase in performance metrics.

Population Health Analyst Intern | Independence Blue Cross | Philadelphia, USA Jun 2024 – Aug 2024

- Optimized analysis of big data (10M+ records) in BigQuery using Advanced SQL, reducing query time by 30% and enabling real-time tracking of HEDIS quality measures for Medicare/Medicaid populations.
- Developed annual population health assessment reports using R and Tableau, incorporating ICD-10 and CPT codes to analyze health equity measurements and inform decision-making across multiple projects.
- Collaborated with cross-departmental analysts to analyze regional blood lead levels in children under 3, identifying high-risk populations by region and delivering insights to the Children's Hospital of Philadelphia to support targeted health equity interventions.
- Streamlined data pipeline efficiency by implementing CTEs, stored procedures, and indexing, while utilizing GitHub for version control to ensure seamless integration of medical claims data from 5+ sources.

Business Operations Assistant | Krest Dental Lab Corp. | Toronto, Canada Mar 2022 – Mar 2023

- Functioned as the key point of contact for dental clients, overseeing billing cycles, monthly financial close, and operational requirements to support lab efficiency.
- Maintained HIPAA compliance while administering patient data in an enterprise-level EHR system, safeguarding sensitive health information through strict privacy protocols.

- Administrative Assistant** | Leo Giles Dr | Ottawa, CanadaJun 2021 – Jan 2022
 - Supported clinical procedures by standardizing patient intake, history-taking, and post-treatment instructions, reducing documentation errors and improving patient experience.
 - Managed front-office operations including billing, inventory, and scheduling, while processing insurance claims and coordinating with providers to ensure timely reimbursements.
- Administrative Assistant** | Pro Physio Medicine Center | Ottawa, CanadaJan 2020 – May 2021
 - Lowered patient no-show rate from 40% to 10% by analyzing multi-source EHR data, implementing targeted reminder strategies, and improving care continuity across multiple locations.
- Research Analyst Intern** | Dental Clinic | Gujarat, IndiaApr 2017 – Aug 2018
 - Conducted in-depth statistical analysis of patient data and EHRs, identifying high-impact process improvements that enhanced patient outcomes and clinic efficiency by 10%.

EDUCATION

- Master of Science in Health Informatics (Data Analysis)** | Northeastern University, USASep 2023 – May 2025
- Post Graduate Diploma in Health Administration** | St. Lawrence College, CanadaSep 2018 – Dec 2019
- Bachelor of Dental Surgery (Public Health)** | Gujarat University, IndiaAug 2011 – Sep 2016

PROJECTS

- Data Analysis and Visualization** | Amazon QuickSightJan 2025 – Mar 2025
 - Collaborated with The Leapfrog Group as an external client stakeholder for a capstone project, developing interactive dashboards in Amazon QuickSight to analyze hospital survey data, track patient safety metrics, and evaluate staffing patterns, delivering weekly progress presentations to client leadership.
- Statistical Analysis of Cognitive Development Patterns** | R, Regression AnalysisJan 2024 – Apr 2024
 - Conducted comprehensive statistical analysis using R, including linear regression, to establish a strong positive correlation ($r = 0.947$) between age and IQ, enhancing understanding of cognitive development patterns.
- SQL-Based Medical Research and Clinical Trials Database**Aug 2023 – Dec 2023
 - Designed an extensive ER model for a clinical trial database using 20,000+ patient records, defining keys, implementing relationships, and deriving insights through custom queries.

VOLUNTEER EXPERIENCE

- Share Food Program | Community Volunteer**Jun 2024
 - Coordinated food distribution efforts to help underserved families access nutritious meals efficiently.
- Cradles to Crayons | Community Volunteer**Jun 2024
 - Assisted in sorting, packaging, and distributing clothing and essential items for children, ensuring local families receive age-appropriate resources with dignity.
